School Characteristics and Replicable Practices

Academic Excellence

• We accelerate 8th Grade students in Science and Math.
• Several PBLs across each grade level push students beyond classroom academics to tackle real world issues.

Developmental Responsiveness

• Students are grouped into “Houses” with an advisor who starts and ends their day together.
• We start the week with grade level meetings where students practice 21st Century skills in a warm and welcoming environment.

• Student-led conferences put students in the position of taking responsibility for communicating their performance to their parents.

Social Equity

• All students are mainstreamed and have access to general educational curriculum.
• Students are grouped and re-grouped by ability and/or interest.
• Parents participate as “expert” panels for our authentic audience for our PBLs.
• Students start every day greeted by their House Leader in Forum, setting a positive tone for each day.

Organizational Support

• Teams of teachers meet to flexibly schedule daily to maximize and individualize learning.
• AIS classes are blocked for concentrated time.
